## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-10 and 13-19 are allowed.

The following is an examiner's statement of reasons for allowance: the shirred, seamless, tubular concertina casing of independent claim 1 defines over the prior art of record because the prior art does not teach, suggest, nor render obvious the tied-off end being turned inward into the inner cavity such that when the casing is filled the concertina is turned inside out and the closure on the outside, a coating or impregnation on the outer surface of the casing comprising a food additive which imparts a color, odor, aroma, or flavor to the casing for transfer of the additive to the food, and the casing being made from thermoplastic starches and other natural or synthetic polymers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hammer et al [Pat. No. 5,928,737] teach a sausage casing.
